

This template is applicable to both interior pages and covers for standard-sized comic books.

Your design should cover this entire template for every page of your comic book meaning that your page layout will always be 6.875" x 10.5" with .125" margin and .125" bleed all the way around.

This template should NEVER be merged with or flattened with your existing comic book artwork. The template should only be used for layout assistance only.

Full Bleed Size: 6.875 x 10.5
Trimmed Size: 6.625 x 10.25

SAFE AREA

MARGIN AREA

BLEED AREA

Safe Area - This is the area that you can always be assured will NOT be trimmed off. In most cases, all of your artwork, panels, balloons, captions, and text should be confined to this area.

Margin Area - This .125" area is a warning area defining what potentially could be trimmed off. It is best to NOT include any primary artwork, panels, balloons, captions or text in this area.

Bleed Area - This .125" area is what will be trimmed off after the file is printed and cut down to finished size. If you have an image that you want to extend to the edge of the page, then the image should extend all the way through the bleed area.

Email Comics@LithoNinja.com if you have any questions to your template layout.
